

Yogesh Haribhau Kulkarni • You

AI Coach (Helping organizations in their AI journeys) | PhD (...
now • 🌐

Many students (and professionals) approach me for internship opportunities or simply, to work with me. While I don't offer any formal internships at the moment, you can choose to contribute to my open-source initiatives on a voluntary basis (i.e., you don't pay me, and I don't pay you!) 🤝

If you're interested in contributing and have a decent background in AI, ML, or NLP, here's how you can get involved:

- ➡ Visit my GitHub: [yogeshhk/repositories](https://github.com/yogeshhk/repositories).
- ➡ Explore & Choose: Pick a repo where you can contribute.
- ➡ Check Issues: If there are existing issues, comment with your proposed solution or start working on them.
- ➡ No Issues? Test the project and file new issues.
- ➡ Send Findings: Email your work to [yogeshkulkarni at yahoo dot com](mailto:yogeshkulkarni@yahoo.com).

These steps will demonstrate your familiarity with the domain, so go for it! Let's take it from there! 💻 🔍
