What are some phrases by which I can ask for help?

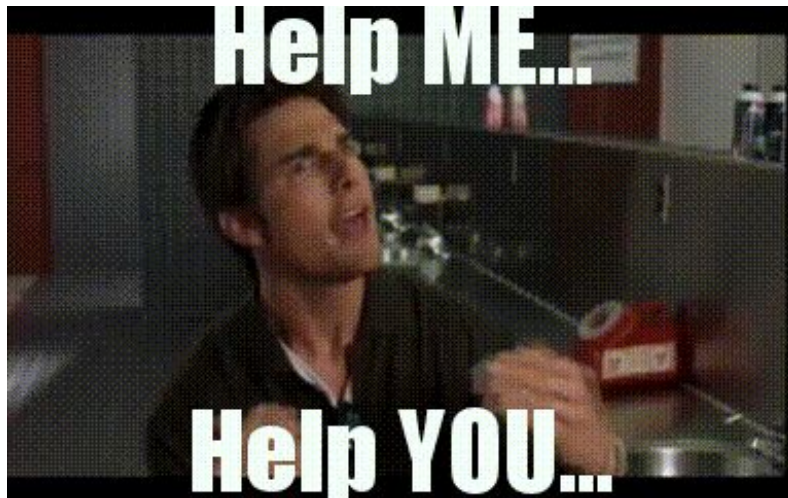

View other drafts

There are many ways to ask for help, depending on the situation and the person you are asking. Here are some general phrases that you can use:

- Could/Would you do me a favor?
- Could I ask/bother/trouble you...
- Can you give me a hand with this?
- Lend me a hand with this, will you?
- Could you help me for a second?
- I need some help, please.
- I'm struggling with this. Could you help me out?
- I'm not sure how to do this. Could you show me?
- I could use some assistance with this.

You can also use more specific phrases, depending on the nature of the help you need. For example, if you need help with a task, you could say:

- Could you help me with my homework?
- Could you help me fix my car?
- Could you help me with this project?
