What is Yoga Nidra ?

– INTRODUCTION –

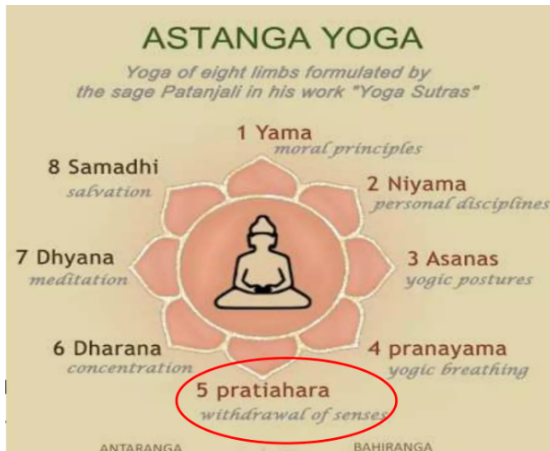

Yoga Nidra: The Art of Non-Doing

Yoga Nidra is one of the least known and most under-appreciated practices of Yoga, yet its potential reach is immense. In our modern society, many of us are accustomed to *doing more to get more*. Even when we want to relax, we ask, “How do I *do* that?” Relaxation doesn’t happen by *doing* more, yet this is how most of us go about it. Yoga Nidra is not about doing more, it is about doing less. Yoga Nidra is about releasing the struggling and striving to get somewhere. It is the art and practice of doing *nothing* to arrive exactly where you want to be.

What is Yoga Nidra ?

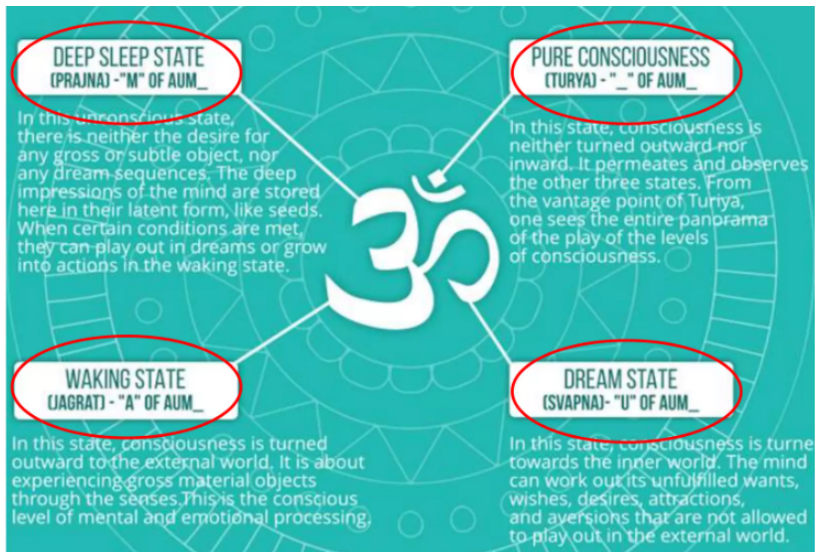

Its is Pratyahara प्रत्याहार : Prati प्रति (inside) + ahara आहार (food), ie food to inside, that is, contrary to our attention being always external looking, here we are looking inside. Plus, there is tantra word 'nyasa' न्यास , meanings seating. meaning you put attention at different places.

3. Body Awareness (Rotation): Relax body parts.
4. Breath Awareness: Relaxation through breath.
5. Opposite Sensations: Experience and release emotions.
6. Visualization: Reach the subconscious with imagery.
7. Resolve (Sankalpa): Repeat the Sankalpa again.
8. Exiting: Return awareness to external surroundings.
