At the wonderful [#ITS2025](#) event organized by the [ISACA Pune Chapter](#), last Saturday, I had the privilege of meeting Dr. [RAJENDRA DAHALE](#) (IPS), Director of the Maharashtra Intelligence Academy, Pune 🚔 📌

After my talk, Dr. Dahale sir invited me to discuss how AI and ML could be applied to their use cases and data. During our conversation, yesterday, I learned about several forward-thinking initiatives by the police and other law enforcement agencies to ensure faster and fairer justice for citizens. Some of these initiatives include:

- ✅ e-Summons
- ✅ e-Sakshya
- ✅ Digital FIRs
- ✅ Integrated dashboards for the judiciary, etc.

With a shared vision of empowering police forces with emerging technologies, we're planning awareness sessions on AI, Generative AI, and Prompt Engineering, etc, soon. 🤖 💡

I'll keep you posted on the upcoming sessions. All materials will be available on my [GitHub](#): [yogeshhk/TeachingDataScience](#), in case you'd like to explore or use them as well 📁 💻

And yes, I didn't miss the opportunity to present a copy of my book "AI Rupe" to Dr. Dahale sir and the library there 📚 ✨
