When your own college continues to support you, even after many years 🙏

I am proud to be an alumnus of [COEP Technological University](#) (B.E. Mechanical Engineering [SW], 1994 batch). And, after completing my M.S. in the USA and 2 decades of professional career, I returned back to COEP for a full-time Ph.D., which I completed in 2017.

Every year, COEP publishes its annual report/magazine, giving alumni the opportunity to contribute. I was delighted to share my recent work, my book on Artificial Intelligence in Marathi, titled AI\_Rupe.

A heartfelt thank you to everyone who called or met me to share such wonderful feedback about the book!

If you haven't read it yet and would like the e-book, you can find it here:

For those who prefer a physical copy, AI\_Rupe is available at:

I look forward to hearing your thoughts as we continue this journey of exploring AI in Marathi 🚀
