🚀 Wish to let you know that I have started curating resources on various fields within the Indian Knowledge System (IKS) through my GitHub repository: "Bharat Vidya"! 🌟

This initiative aims to gather and organize valuable information on key areas of ancient Indian wisdom and make it accessible to everyone.

🔗 Check out the repository here: https://lnkd.in/dmZw_N5V

Currently, the repository features the following 'Awesome' pages, each dedicated to a specific domain of IKS:

📚 Awesome Arthashastra: Explore the ancient Indian treatise on statecraft, economic policy, and military strategy. https://lnkd.in/dDj5_JNe

📚 Awesome Sanskrit: Dive into the classical language of ancient India, with resources for learning, texts, and literature. <https://lnkd.in/du6fBgE3>

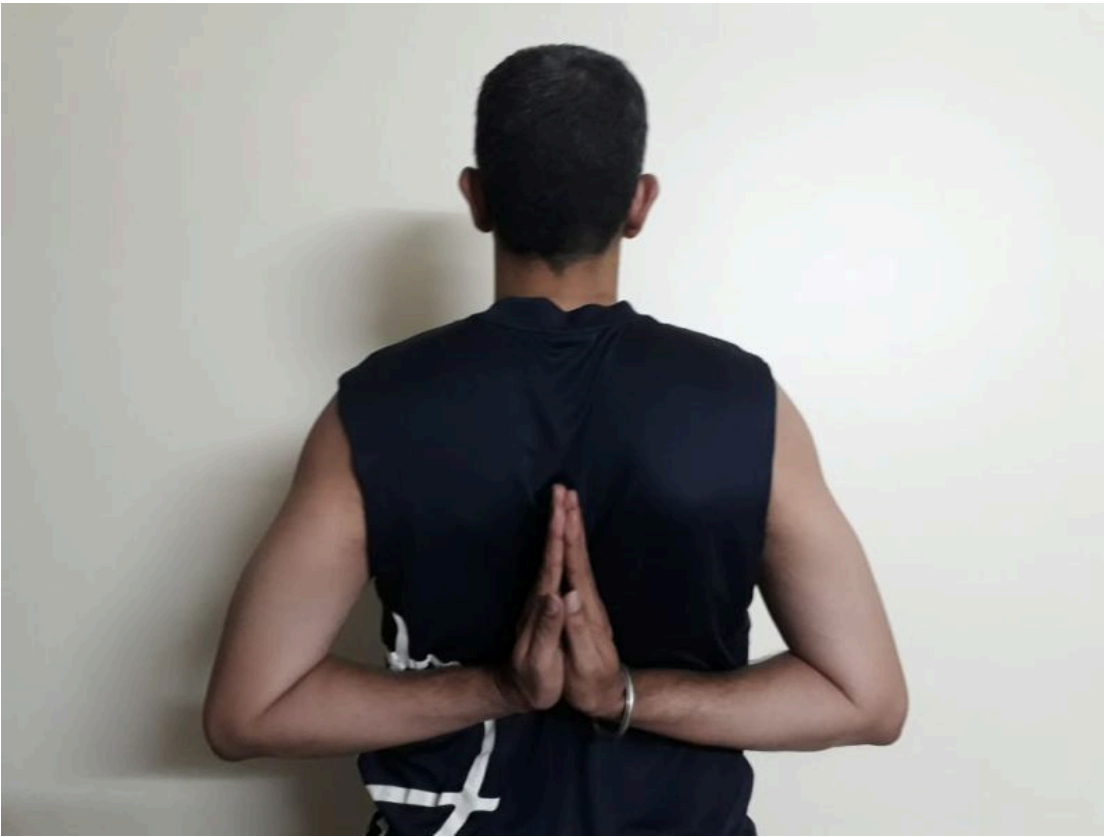

📚 Awesome Yoga: Access a comprehensive collection of resources on yoga, including instructional guides, texts, and multimedia content. <https://lnkd.in/draEDFPs>

If you are passionate about these topics and have valuable resources to share, I warmly invite you to contribute! You can enhance these pages by submitting additional resources

through a Pull Request (PR) or simply by mentioning them in the comments below.

Let's collaborate and build a rich repository of knowledge together! 🌐 📖
