# Summary of “Detaching Yourself From Irrational Thinking”

YouTube channel: Tom Bilyeu

## Original Source

Richard Dawkins on Detaching Yourself From Irrational Thinking | Conversations with Tom ([YouTube](#) 41 mins)

## Jottings

- Theme: Rationality
- Truth was important earlier (where lion is?!), but now more important as it used as a political weapon in distorted form.
- Example: Homeopathy. The premise that “very diluted disease-causing-substance cures the disease” is not at par with evidence-based other types.
- Meaning of life: ‘Propagation of selfish genes’, or you decide for yourself.
- Book “Greatest show on earth’: evidence of evolution. Why Darwin was right.

*The above summary was also posted in the Comments section of the original [YouTube](#) video.*
