now • 🌐

Expanding scope of the Medium Publication which I had started about an year ago: <https://lnkd.in/dejYd2Tp> Apart from stories related to innovation and technology in the current India it will also include stories related to various aspects of ancient Indian Knowledge System, i.e. technologies from India.

Feel free to contribute. Open and Free to all. In nutshell, it will now cover, old/new technologies from India. Stories involving AI (Artificial Intelligence) would be दुग्ध शर्करा योग (सोनेपे सुहागा, Icing on the cake).

Specifically, for the 'AI-By-Bharat' aspects I've initiated a  GitHub page, 'Awesome AI-By-Bharat' (<https://lnkd.in/daajtx8n>) where we can gather efforts and projects driving the 'AI-By-Bharat' vision. I'd love your contributions! Let's fill it together with relevant projects, papers, courses, and more!  

I've also penned down my thoughts on 'AI-By-Bharat' in a Medium story: <https://lnkd.in/dqwXCRsY>
