💡 Exploring the World of AI... and Beyond! 🚀

In my weekly column "तिसरा मेंदू" (Third Brain) for the Marathi newspaper Sakal, I've been diving deep into how AI is shaping various fields. So far, I've explored:

📅 AI Topics Covered:

- 💡 AI Myths and Realities (Jan 7)
- 💻 Digital Workforce (Jan 14)
- 📱 AI In Your Pocket (Jan 21)
- 🌱 AI In Agriculture (Jan 28)
- 🛡️ AI In Defense (Feb 4)
- 🌐 AI In Translation (Feb 11)
- 🎬 AI In Entertainment (Feb 18)
- 🎓 AI In Education (Feb 25)

➡️ SOON What's Coming Next?

I'm planning to cover even more areas like:

- 🏥 AI In Healthcare
- 🚗 AI In Transportation
- 💰 AI In Finance
- 🏠 AI In Smart Homes
- 👤 AI and Employment
- ⚖️ AI and Bias
- 📋 AI and Regulation
- 🤖 Artificial General Intelligence

But here's where you come in! 💡

I'm thinking of switching gears after this AI series to explore Mental Models — as these are part of intelligence also ('Third Brain' so as to say) and are powerful thinking frameworks made famous by legends like Charlie Munger and Shane Parrish of Farnam Street. 🧩

📖 Potential Mental Models I'd cover:

- 🗺️ The Map is Not the Territory
- 🎯 Circle of Competence
- 🔍 First Principles Thinking
- ... and many more!

💬 What do you think? Should I continue with AI or dive into Mental Models? Drop your thoughts in the comments! 💡 👉

Also, if you have suggestions for other themes you'd love to read about, let me know! 🙌
