[Experfy](#) has launched my course titled "Introduction to Artificial Intelligence".

It builds foundation using quite a few theoretical concepts coupled with practical examples, making you ready for the courses further in the AI track.

Out of many references used to prepare the course, the one that has influenced the most, is the insightful book titled "Artificial Intelligence: A Modern Approach" by Stuart Russel and Peter Norvig.

Course Link: <https://lnkd.in/fBrTaNx>

My previous courses, again launched by [Experfy](#), are:

- "Unsupervised Learning: Dimensionality Reduction and Representation"
- "Hands-on Project - Data Preparation, Modeling & Visualization"

Thanks [Experfy](#) team, especially [Ibrahim Chalak, PMP®](#) and [Veena Bhargavi Rallabhandy](#) for your support.
