## Pursuing hobbies on the sides

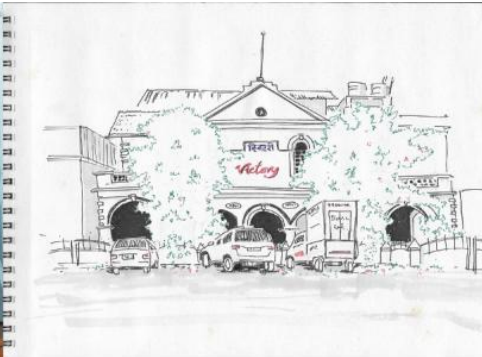

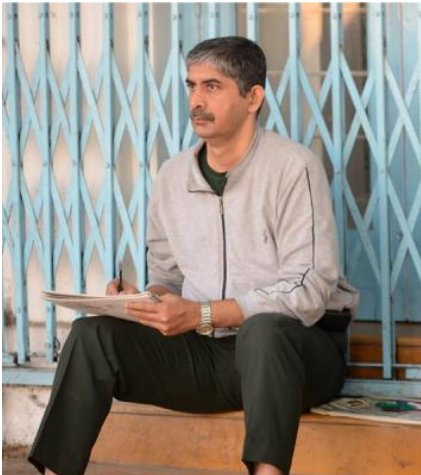

-----

I have been interested in sketching right from the childhood. Had my first picture in the exhibition at age 8 (obviously a childish one). Later, have been pursuing this hobby on-and-off, especially the cityscapes. Here is the collection: <https://lnkd.in/dTZ7zHna>

I had also tried my hands at learning watercolor painting. It looked far more challenging as you have to plan layers keeping end in mind. Less chance of corrections. Learnt by watching experts like Sachin Naik and Milind Mulick sir. Here is the collection: <https://lnkd.in/d7BZJhtX>

PS: Once in a while I plan to deviate from professional topics and write about a few other-but-interesting-to-me stuff.

#urbansketchers #citiscapes #hobbies #art #sketching #painting #watercolor

background on DFT flows and methodology

These are pretty nice. I knew about your hobby when we had met about 20  
years back, so glad that you were able to continue.
