🔔 Internship for Final-Year Engineering Students 🔔

Noticing a prominent issue: Due to prevailing market conditions, many 4th-year engineering students either haven't secured internships or have offers for just 2 months out of the required 6. In such cases, students often end up doing some projects within their college.

🎯 I'd like to offer my time, as a co-advisor to guide such students on projects if they pertain to 🔍:

- Projects involving AI, ML, NLP, or Generative AI
- Students (preferably) from core branches like Mechanical, Manufacturing, Electronics, etc.
- Colleges where internal faculty handles admin tasks, evaluation, and certification (co-advise alongside myself)
- Students who are sincere, self-driven, and have basic programming + ML knowledge

🧠 I can:

- Conduct focused sessions on AI/ML
- Suggest solution approaches
- Review code
- Help write blogs or papers
- Promote the work here on LinkedIn

🤝 No money involved, meaning, I don't pay you, you don't pay me. Do note that, I cannot promise a job or MS admit post internship.

📍 I'm based in Pune and can meet occasionally on Saturday mornings, or we can work fully online. I can take up to 6 students (to begin with).

📧 Interested students or colleges, reach out to me at yogeshkulkarni [at] yahoo [dot] com with the subject line: "Internship Fall 2025".
