For the past two years, I've been contributing as one of the authors on the editorial page of the Marathi newspaper 'सकाळ' (Sakal, Morning), under the section "भाष्य" (Bhashya, Commentary).

Starting in 2025, I have been requested to write my very own column titled "तिसरा मेंदू" (Tisara Mendu, Third Brain), which will be published every Thursday on the same editorial page.

Why तिसरा मेंदू? 🤖 Just as we have two brains (the large and the small), Artificial Intelligence (AI) and technology in general, are becoming extensions of our capabilities, almost like a third brain seamlessly assisting us in our daily lives. (And... rhymes with the 'Third Eye' of Lord Shiva as well. 😊)

🔍 This column will dive into the fascinating world of technology, particularly AI, which has captured the curiosity of so many. While the rapid growth and sheer breadth of AI make it impossible to cover everything, I aim to present key concepts, critical milestones, and practical applications in an engaging way.

तंत्रज्ञान, विशेषतः सध्या जनमानसात जास्त औत्सुक्य निर्माण करणारी आणि प्रचलित असलेली 'कृत्रिम बुद्धिमत्ता' (ए आय, Artificial Intelligence) या विषयावर आतापर्यंत विपुल लेखन झाले आहे आणि होतही आहे. परंतु या विषयाचा विकास आणि आवाका इतक्या प्रचंड वेगाने वाढत आहे की कोणत्याही व्यक्तीकडून किंवा कोणत्याही माध्यमातून त्याला पूर्णतः कवेत घेणे अशक्यप्राय आहे. तरीसुद्धा, या विषयातील काही महत्त्वाचे टप्पे, संज्ञा आणि उपयोजित क्षेत्रांचा आढावा सर्वासमोर मांडण्यासाठी ही लेखमाला सादर करत

आहे.

Stay tuned! 💡
