After many of my talks, people often express interest in working with me 🧡

I do have such opportunities, but with a few conditions:

- ✅ You should have hands-on experience with the AI stack: Python, LangChain or LlamaIndex, RAG, fine-tuning, Tensorflow/Pytorch, etc.
- ✅ This is a voluntary contribution. You don't pay me, and I don't pay you.
- ✅ My involvement will be at a high level, no hand-holding.
- ✅ This is not a formal internship or job offer. It's an unpaid side project or gig.

Here are some [GitHub](#) repos you'll contribute to:

Mining Resume

Extract fields from resumes and optionally build a knowledge graph for chatbot querying

Beyond code, we might explore talks or research papers on these topics (no guarantees).
