🚀 Wish to share that my latest Medium blog post, "Unveiling Manifold learning: What a neural network is really doing?" has just been published! 📖 ✨

In this piece, I delve into the world of manifold learning and its connection with the neural networks. 🧠💡 From understanding neural networks as function approximators to exploring the manifold hypothesis, the blog takes you on a journey through the technical intricacies that make these networks so powerful in solving complex problems like image recognition and language translation. 🌐 🔍

If you're in the tech space, machine learning, or simply curious about the magic behind the scenes, this blog is for you! 🚀

Read the full article here: <https://lnkd.in/dV6c3ehX>

I'd love to hear your thoughts and insights! Feel free to share, comment, and let's keep the conversation going. 🗣️💬
