[Follow](#)**Announcing Vidya-Setu (Knowledge Bridge) 🚀: Transforming Professionals into Professors! 📖**

We are observing a concerning trend in the educational institutes. Student engagement is declining, and professors are overwhelmed with non-teaching responsibilities. When teaching effectiveness drops, curiosity fades. And when curiosity fades, students miss exposure to the latest industry practices and innovations.

But here is the reality. It is not just the students. It is not just the teachers either. The system needs reinforcement.

🔗 The Outcome: Learners lose interest and graduate without the industry context they truly need.

🔗 The Solution: Integrate professionals directly into the educational ecosystem.

Imagine classrooms enriched by corporate professionals, qualified homemakers, early retirees, UPSC/MPSC aspirants, and domain specialists. Students gain real-world perspectives. Professors receive meaningful support. Education becomes relevant again.

We are launching Vidya-Setu with a mission to bridge this gap and make interested contributors teaching-ready. The initiative will begin with preparing an open-source playbook featuring structured steps, learning paths, pedagogical guidance, certifications, and checklists for a seamless career transition. Explore the [GitHub](#) repository at [yogeshhk/VidyaSetu](https://github.com/yogeshhk/VidyaSetu) for more details.

**Ways to Contribute:**

- Deliver Expert Lectures
- Take Adjunct Faculty Roles
- Create Online Courses
- Mentor Students

## - Join as Professors of Practice

🌟 Why contribute? Share expertise, create meaningful impact, enjoy flexible engagement, and help transform national education.

🌟 Accelerate your second career. Transform lives through knowledge.

Here is a question worth debating: Should teaching remain limited to career academics, or is it time for industry professionals to co-own the future of education?
