Pune AI Community is happy to announce that we are now a community partner for the upcoming 'AI Deep Dive' webinar series by [Google for Developers](#). It is free and open to everyone. And yes, it is designed for anyone who wants to build the future of Agentic AI.

AI is moving fast. Basic prompting is no longer enough. This series will help you push beyond the surface and work through the real engineering lifecycle of modern AI systems. You will explore Google's powerful stack and learn how to design and deploy next generation AI agents. From the fundamentals to advanced concepts, it is all packed in here.

What can you expect?

You will learn from top Google experts. You will get hands-on guidance. You will explore tools, workflows, and best practices that real teams use today. Plus, there will be insights about Google Cloud Credits and other perks that bring real value to developers.

We love that [Google](#) is bringing this to the community. And we are thrilled that **Pune AI Community** can help more people join in. Our mission is to make AI knowledge more accessible. This partnership is another step in that direction.

To join, register at: <https://lnkd.in/dRazmUab>

Important note: In the drop-down titled "How did you hear about us?", select "Pune AI Community".

Event details

- Website: <https://lnkd.in/dnxsrJPf>
- Session Date: December 4th, 6:00pm - 8:00pm

Bring your curiosity and your questions. This is your chance to learn the latest. Are you ready to shape how the world uses AI next? Or are we still stuck with basic prompts?
