Building Sketches

Sketching Buildings

Had I not got admission into the Government College of Engineering Pune (CoEP), I would have been an architect. Buildings, shapes of spaces and play of lights, fascinate me. So, even within Mechanical Engineering, I remained in Geometric Modeling, for my degrees and first 2 decades of professional experience. The lost-opportunity of being an architect has got morphed into sketching buildings. Over years, I have quenched that thirst by joining a local groups in Pune, called Urban Sketchers.

Here are some samples:

160

2

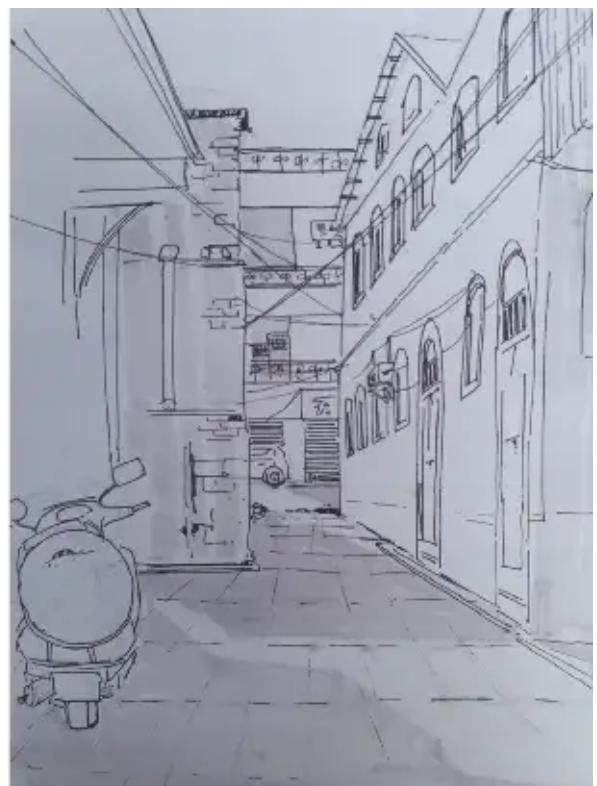

...

Gokhale Institute — Front Building, near Fergusson Road, Pune

Gokhale Institute — Building Behind, near Fergusson Road, Pune

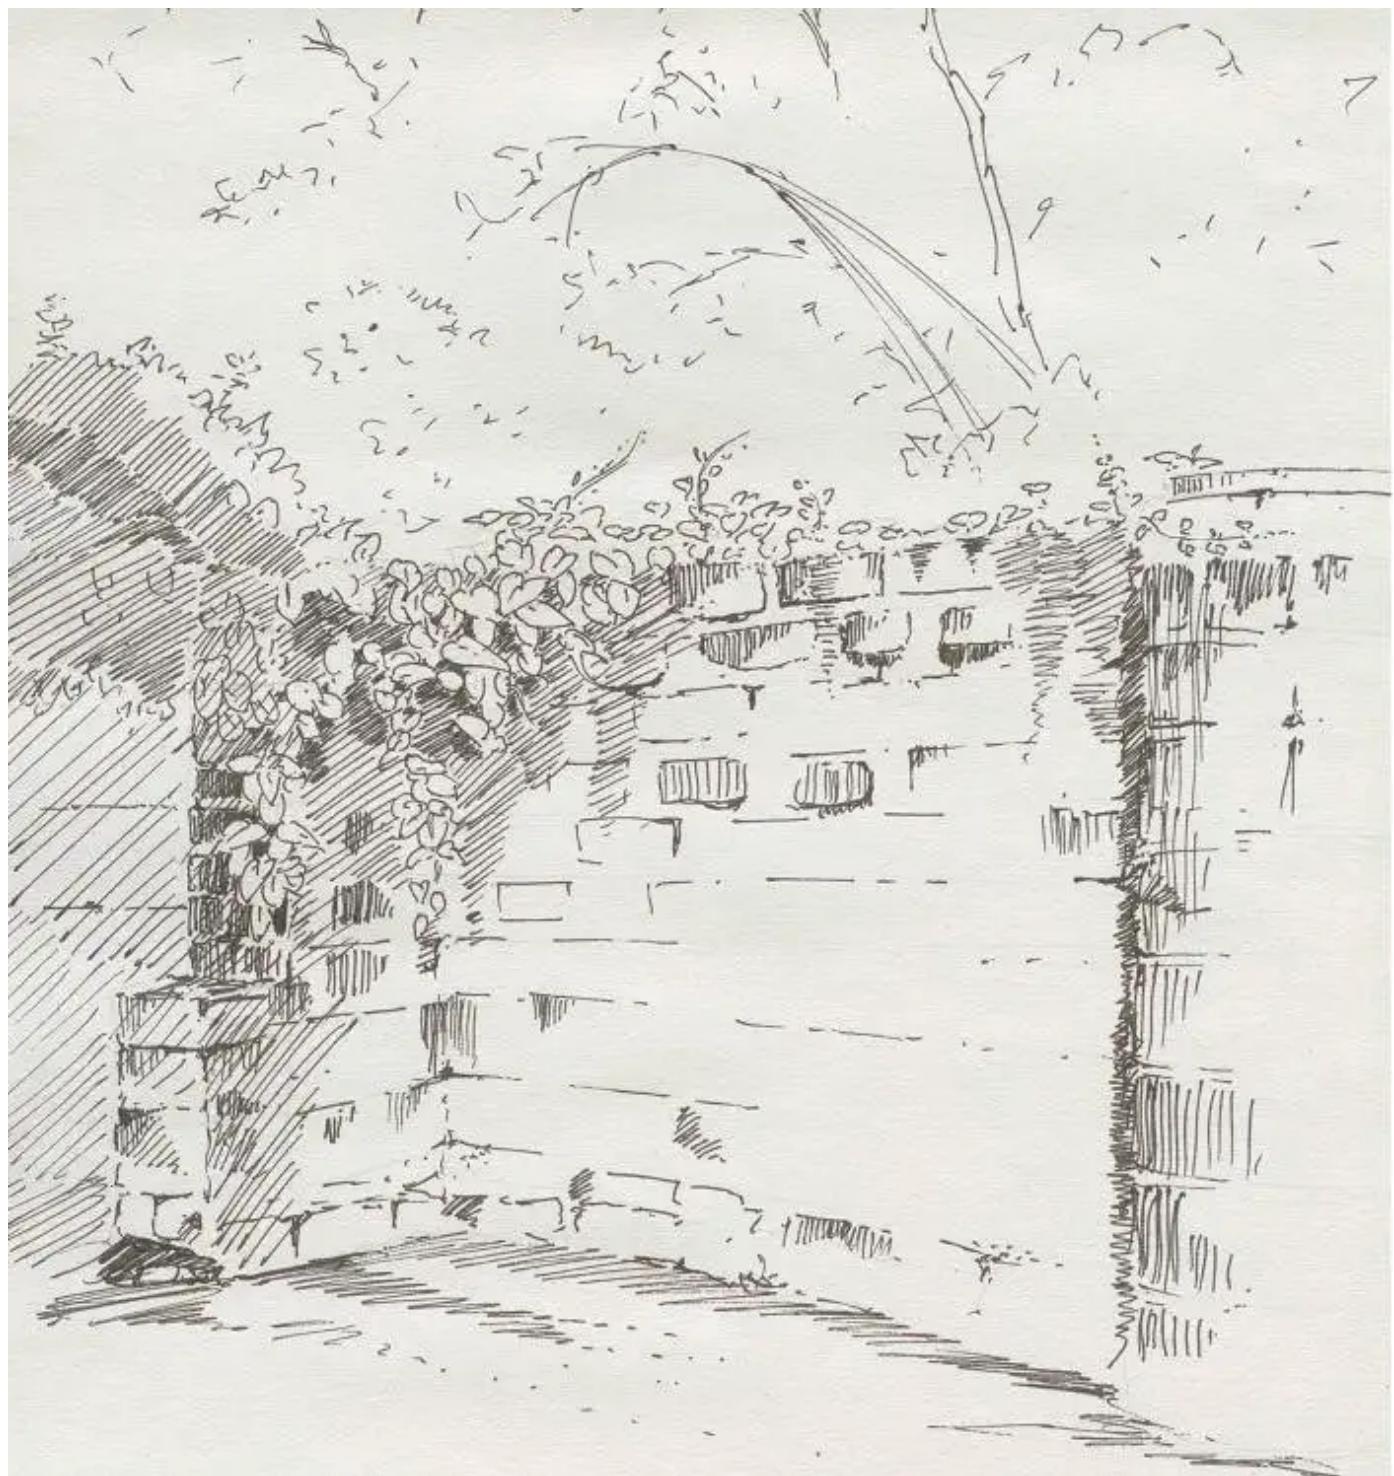

Kamra Agyari Blacklane — Pune

S M Joshi School, near Golibar Maidan, Pune
