

HERE'S WHAT HAPPENS
WHEN YOU HIRE A
SKETCHNOTER
FOR LIVE-SCRIBING AT
YOUR next event!

SiLlyStroKes

I. YOU DON'T JUST PROVIDE VALUE, YOU CREATE AN **UNFORGETTABLE EXPERIENCE!**

People love to see an artwork come to **LIFE!**

The experience of watching someone draw their thoughts, will definitely stay with them long after the event is over.

2. YOU KEEP THE PEOPLE **HOOKED** TO THE EVENT!

With LIVE-SCRIBING, you will not need coffee to keep the attendees engaged and awake.

It's common for people to zone-out and wander off onto an unrelated train of thought.

Live-Scribing keeps the audience hooked, ensuring a satisfactory experience to the SPEAKER & the ATTENDEES!

3. YOU CREATE A **GREAT ASSET!**

The sketchnote once made can be used as add-ons sent/given to attendees as visual summaries of the event.

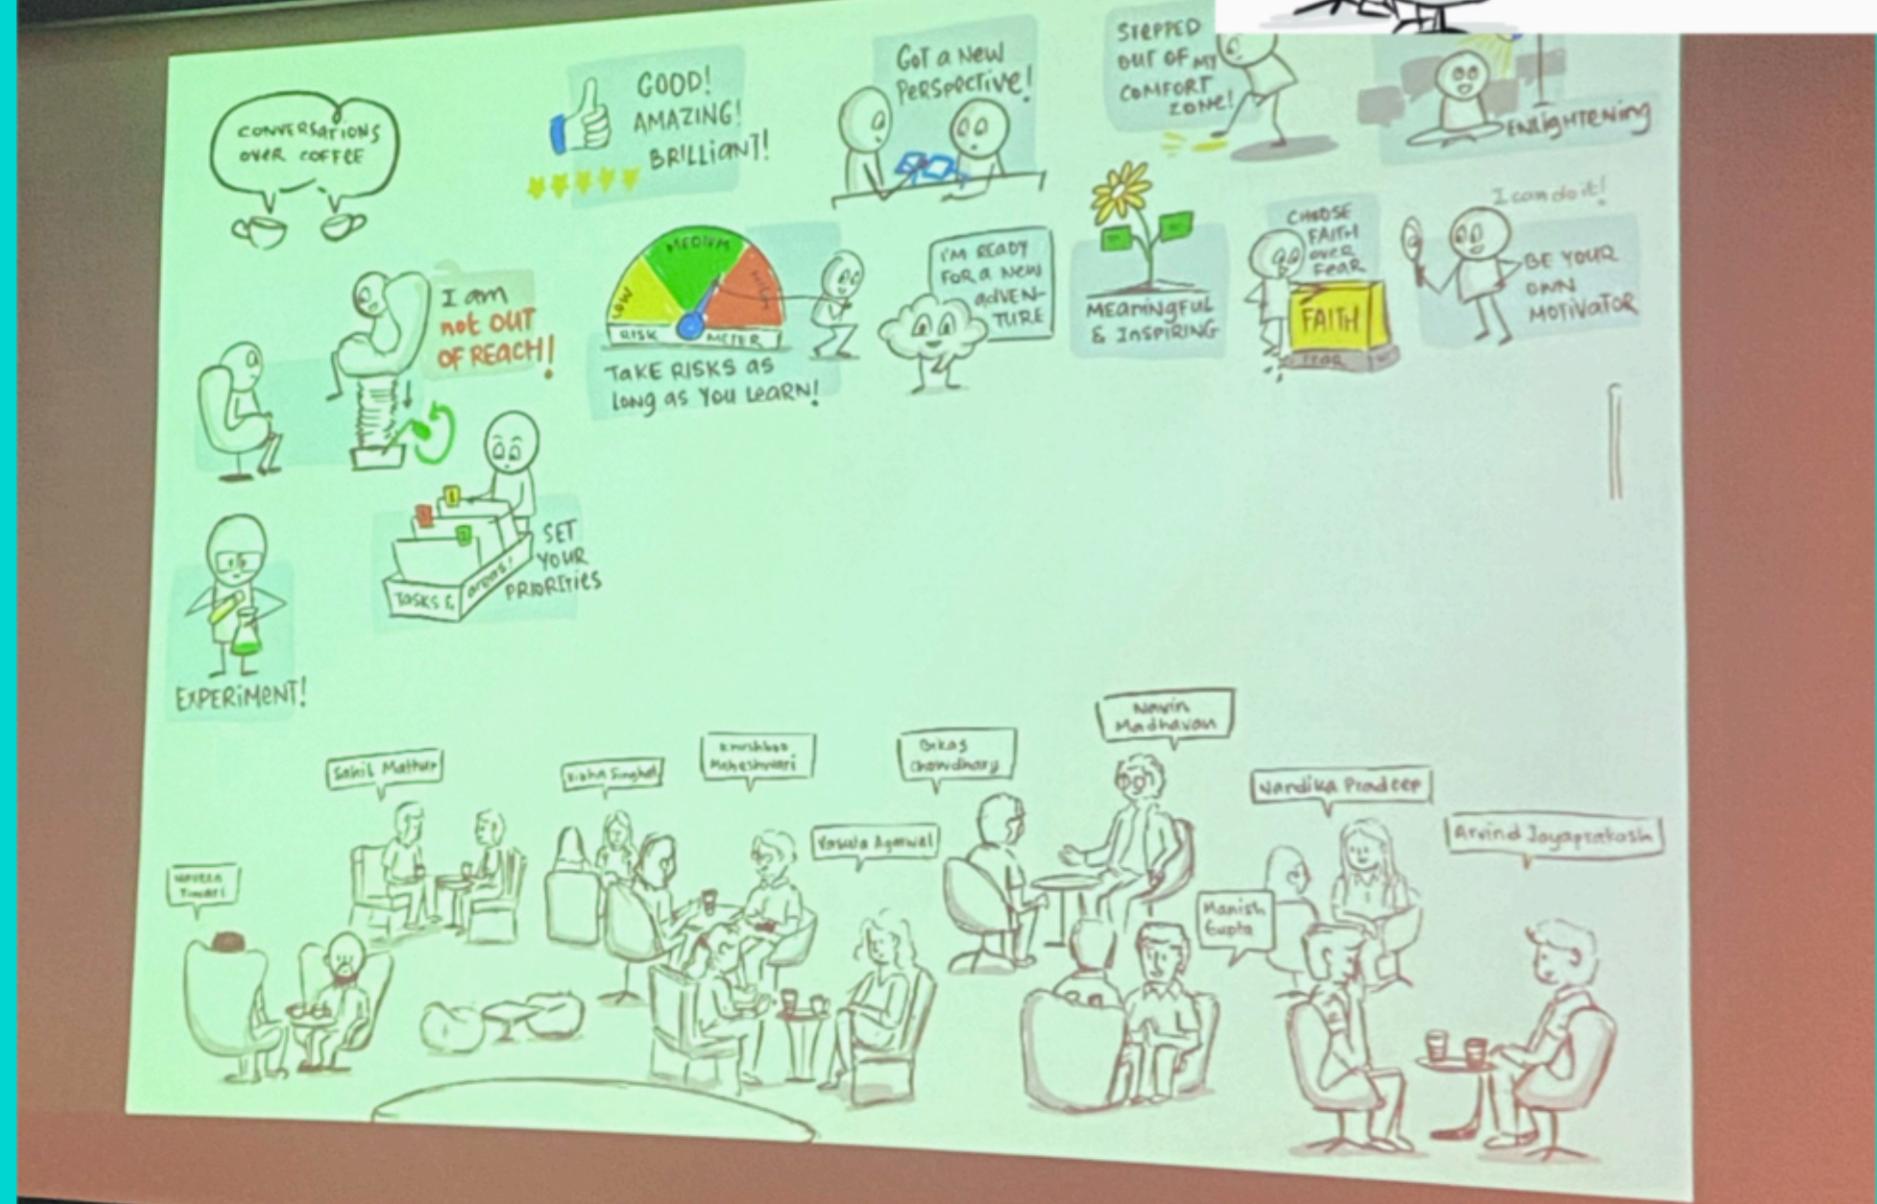

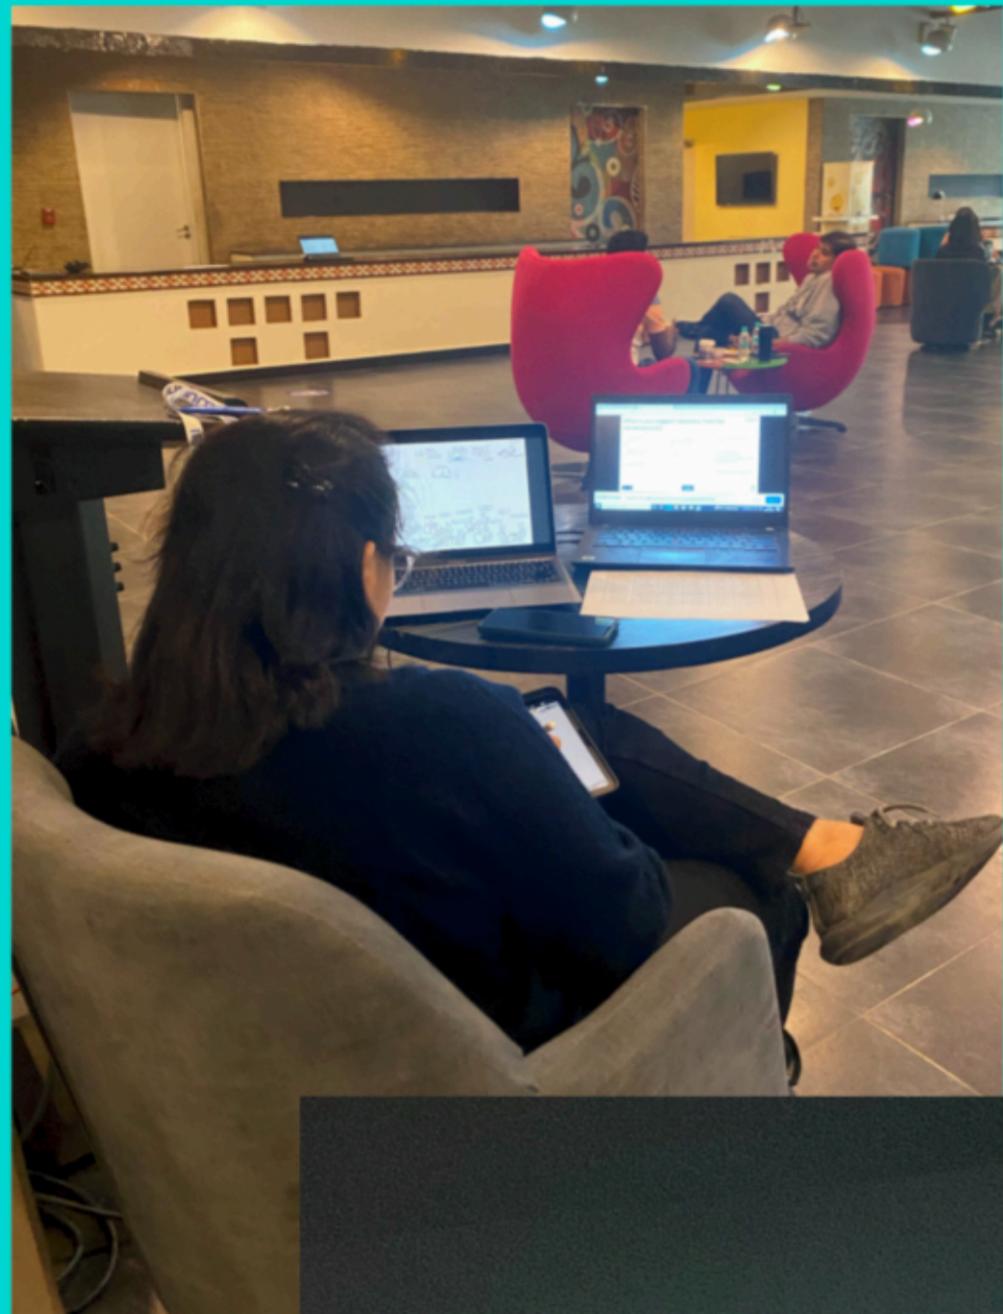

It can be used across all your marketing channels to show how much value was delivered, all at a single glance.

It also works as great momentos when gifted to speakers as a token of appreciation

Live-doodling at Inmobi

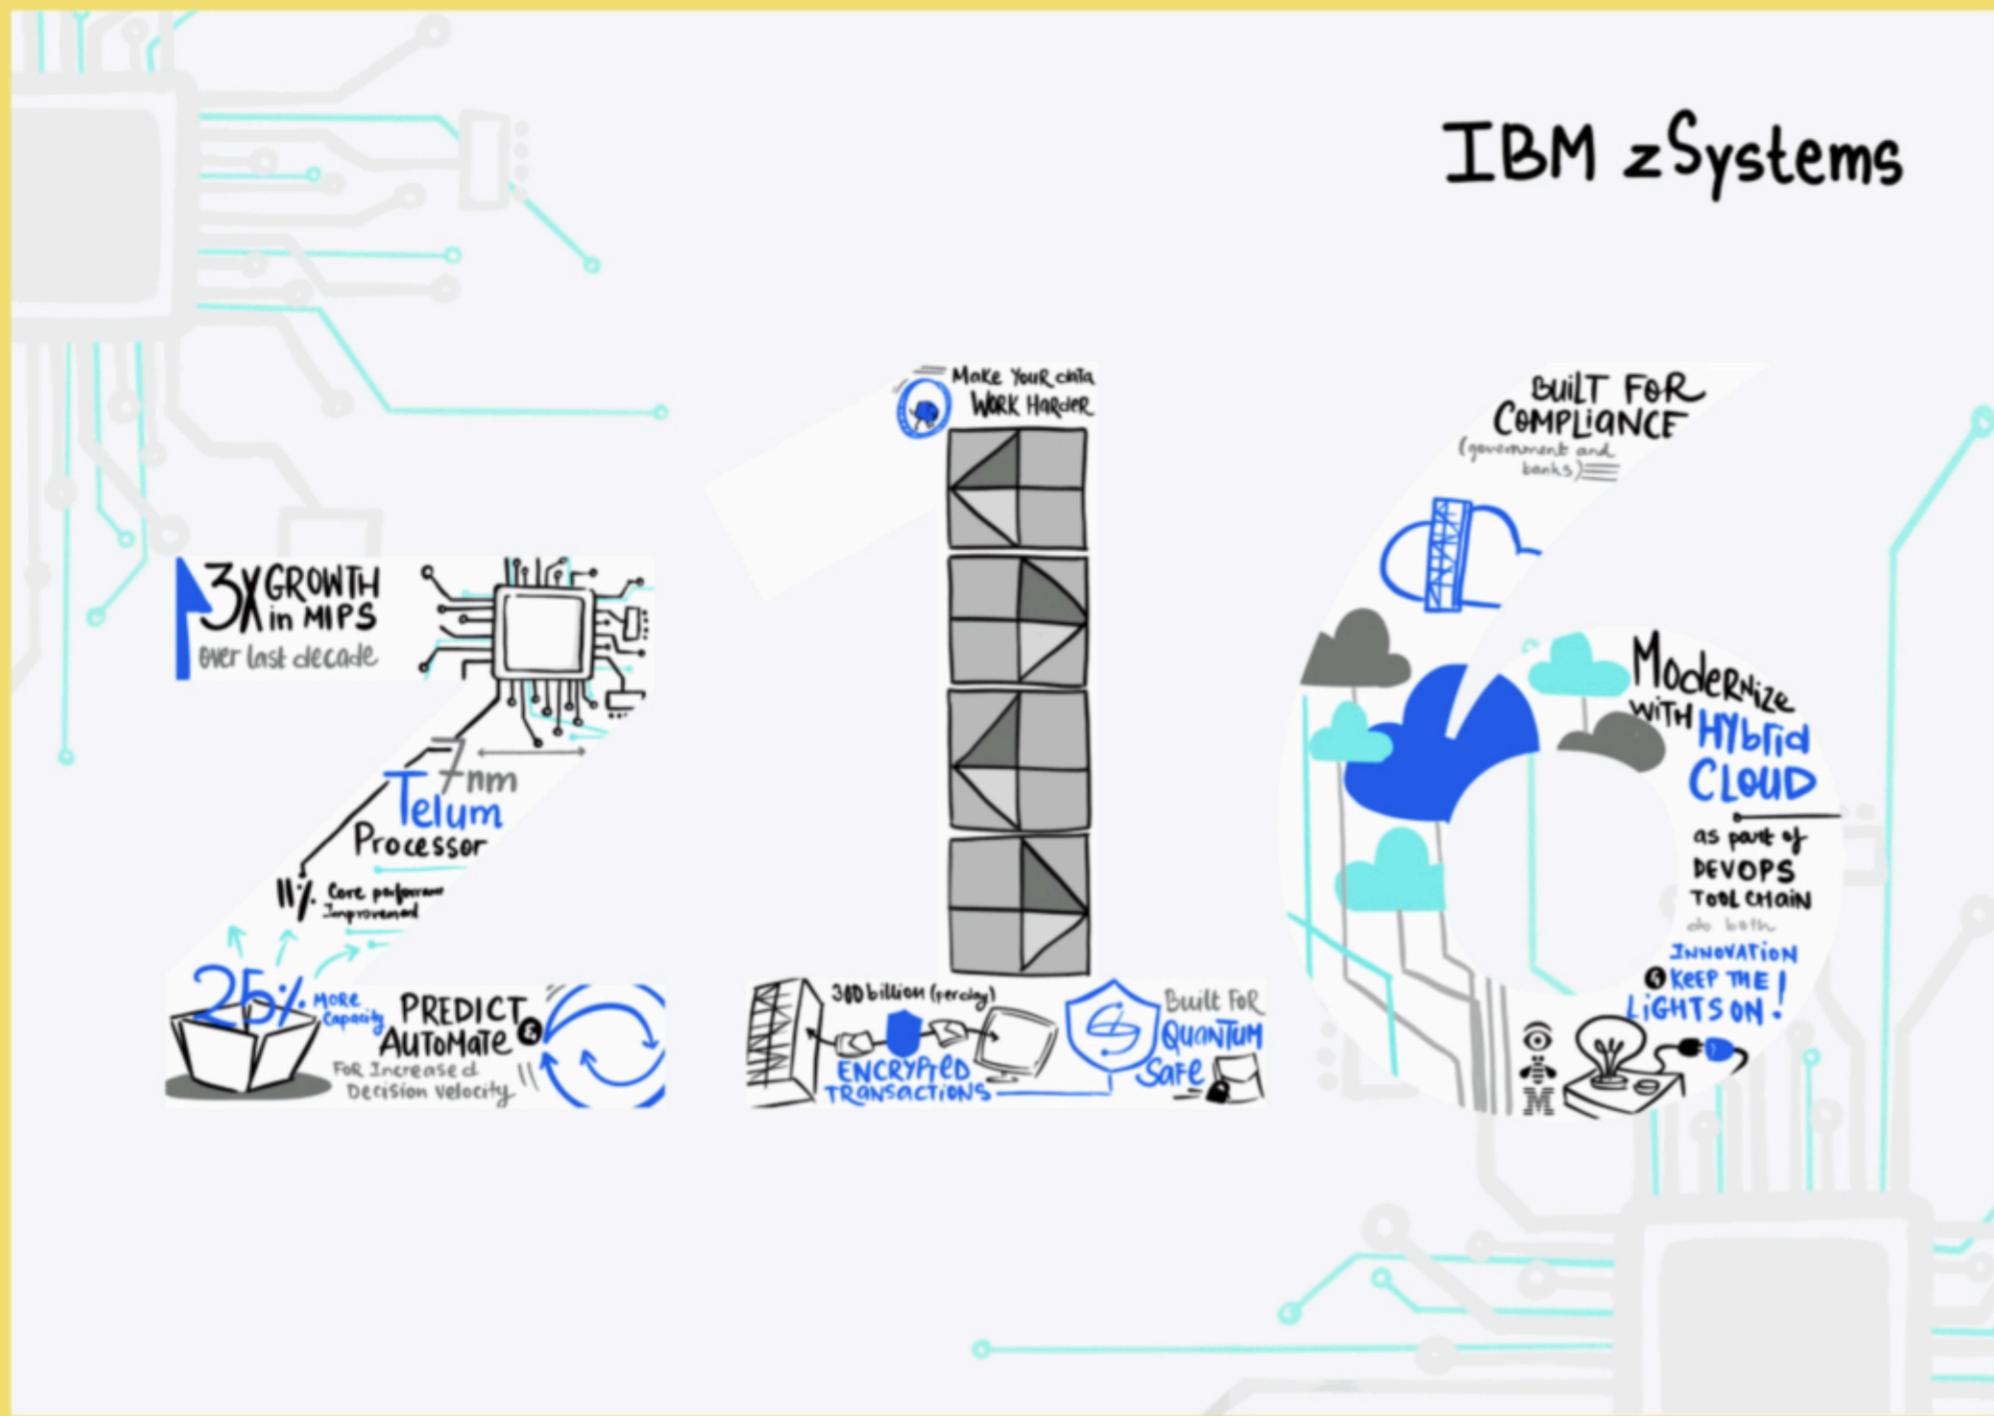

Capturing the vibe & experiences live!

My ipad screen was shared for the entire duration of the doodle being made.

This was later printed on a 12ft X 10ft board and placed in the office.

Live - Sketchnoting done for IBM

The Sketchnote was made during the Key-Note Speech at the launch event of IBM z16 processor.

The sketchnote was then printed, framed and gifted to every attendee.
