🚀 Announcing a new vertical under my AI Advisory, AI Recruitment Support 🚀

Over the last few years, I've seen a recurring pattern across organizations building AI capabilities: Hiring the right people is often harder than building the right models. Most traditional recruiters lack the technical context to evaluate AI/ML talent effectively, leading to long hiring cycles, poor fits, and missed opportunities.

To bridge this gap, I'm launching a Recruitment Support vertical within my AI Advisory practice, specifically focused on AI, Data Science, ML, DL, NLP, and LLM roles.

#### What's on Offer

- Referrals: Handpicked candidates across levels, from interns and freshers to senior professionals.
- L1 Interview Offloading: Conduct the first-round technical evaluation (L1), ensuring your team only meets qualified candidates.
