Got recognition for my voluntary contributions to Rasa, an open source AI Assistant (chatbot) platform (post below...)

Thanks to Emma-Jade Wightman, Alan Nichol, Justina Petraitytė, folks at Analytics Vidhya for their continued support. #artificialintelligence #python #opensource #chatbots #rasa #aiml #ai #machinelearning Yati.io

We couldn't be more proud to welcome Yogesh Kulkarni to the Rasa Heroes group! 🚀
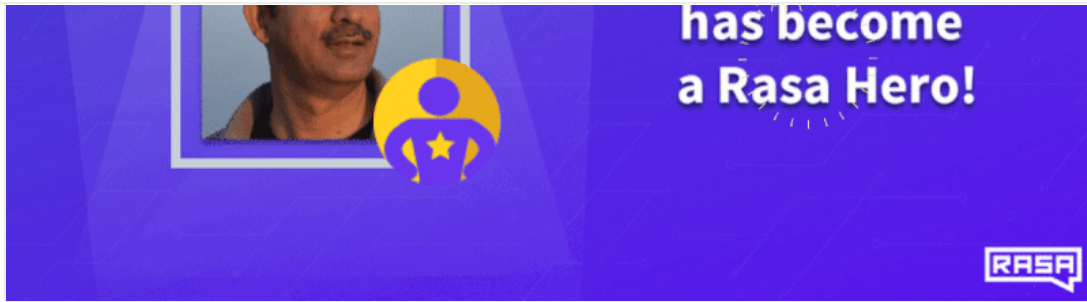

Rasa Heroes are experienced contributors who consistently make high-quality contributions and champion Rasa within other communities... we're pleased to announce that Yogesh definitely fits the bill! 😎
He has been part of the Rasa community for a very long time, in 2018 he published a tutorial on how to build a chatbot using Rasa. Moving on to 2019, he spoke on the "Introduction to Chatbot Development using Rasa" and even prepared a full day workshop on "building your own AI chatbot". More recently, he provided an introductory session on "Development of Chatbots using the Rasa Framework" at Cummins College of Engineering for Women in #Pune, India.
We are very thankful to Yogesh for his support of the community and we are excited to follow his progress in 2020!
