Under the New Education Policy (NEP) 2020, the Indian Knowledge System (IKS) is being recommended for Engineering streams.

Are you seeking ready-made presentations, course materials, and learning-teaching resources related to IKS?

Look no further! An open-source repository encompassing all these resources is now available for your free use. Feel free to contribute and make the most of this valuable repository. 🚀

This repository merges my related repositories such as YogaShastra, ArthaShastra and Samskrit.
