🙏 Heartfelt thanks for sharing such a wonderful review! When I wrote AI-Rupe, my aim was to make the complex world of Artificial Intelligence accessible in simple Marathi, and it's truly rewarding to see it resonate with readers.

If you wish to buy, its at Amazon https://lnkd.in/dniuacS7

Thanks to Sakal Media Group for originally publishing these articles for a wider audience, primarily all over Maharashtra, but also for all Marathi speaking folks via eSakal.

YOGESH KHAIRNAR, CTFL, CSM, SFC, CP-MAT, TKP Thanks again

I wouldn't call myself an avid reader, but in my view, a good book should have the power to keep you hooked. 😊

And so far, "AI-rupe / एआय-रूपे: 'कृत्रिम बुद्धिमत्ते'ची 'विविध क्षेत्रातील रूपे" has done exactly that for me.

I have been following Yogesh Haribhau Kulkarni Sir on LinkedIn for the past few months, watched a few of his YouTube videos, and felt his book would be worth my time. Glad to say, I wasn't wrong.

I have covered a few chapters, and I am genuinely impressed with the way concepts are explained in such simple, relatable examples (in Marathi). Before starting this book, I thought my मराठी vocabulary (शब्दसंग्रह) was fairly strong, but this read has truly humbled me (and expanded it at the same time). 😂

Once I finish the complete book, I will share a detailed review via a blog post on my blog (https://lnkd.in/fThejW4). But till then, if you are curious about today's hottest topic in the world, i.e. Artificial Intelligence (कृत्रिम बुद्धिमत्ता), ज्याला प्रेमाने आपण AI असे संबोधतो, this book is definitely worth your time and money.

As a संगणक प्रणाली चाचणी अभियंता (Software Tester), I am really glad I decided to invest in this one.
