📚 📝 🔍 Excited to share my love for taking summary notes while diving into books, podcasts, and videos! 🎧 📖 🎥 These notes have evolved over time, ranging from simple plain text to visual sketchnotes, presentation slides, cheat-sheets, and reference cards. 💡 ✍️

I've open sourced all these forms on my GitHub repo: yogeshhk/Publications/Posts. Feel free to explore and leverage them! 🌐 🔓

Here are some of the summaries currently available:
📕 "Ganiti" by Achyut Godbole: Originally in Marathi, I took notes in English to reach a wider audience. 🌍 🌟
📘 "Chhatrapati Shivaji Maharaj Jeevan Rahasya" by Narhar Kurundkar: Also originally in Marathi, I've summarized the content in English. 🌍 🤩
📗 "How To Get Rich" by Naval Ravikant: My summary is of the original form of a tweet storm. 🐦 💰
📙 "Dasbodh" by Samarth Ramdas: I've condensed this profound work into a concise one-pager overview. 📄 🧠
💎 I've also gathered gems from brilliant thinkers like Nassim Taleb, Naval Ravikant, James Clear, Paul Graham, Derek Sivers, Mo Gawdat, Ray Dalio, Shane Parrish, and more. 💡 💭
🎙 Additionally, I've captured key insights from the thought-provoking "Making Sense" podcasts by Sam Harris. 🎧 🎙
📖 Other book summaries include "The Master Algorithm" by Peter Domingos, "The Victory Project" by Saurabh Mukherjea, and "Zen Habits" by Leo Babuta. 📚 🔍

Stay tuned for many more summaries to come! 📚 📝 ✨
