Pune AI Community
2,679 followers
now • 🌐

➡️ Are you a student looking to build a solid project to showcase on your resume?

➡️ Are you a professional wanting to create a portfolio for a transition into AI?

➡️ Do you enjoy solving challenging problems and contributing to open source?

👍 If yes, this might be for you. 🚀

Enroll to 'Pune Artificial Intelligence Community Mentorship And Collaboration Scheme' (PAIC MACS), focused on building real world systems using RAG, Knowledge Graphs, LLM fine tuning, and geometry aware AI.

This is a voluntary, non-monetary, project based initiative where contributors work on open source GitHub projects like Ask Yogasutra, MidcurveLLM, and other community led AI systems. You learn by building, collaborating through pull requests, and exploring research oriented ideas.

Important note. You will do most of the work. Guidance and discussions will be high level only. No spoon feeding. 😄 Ideal for practitioners who want experience beyond tutorials, with potential pathways to talks and research papers.

Intro Session:

📅 Saturday, December 27

⏰ 3:00 PM to 4:00 PM IST

🌐 Virtual

Register here 👉 https://luma.com/fu9lvja5

This webinar will give an overview of the repositories and the overall process.
