No excuse not to be in tune with the times.
No excuse not to be aware of Artificial Intelligence (AI).

Just stumbled upon an awesome Generative AI course by Microsoft.
Check it out here: Generative AI for
Beginners https://lnkd.in/d2wqbmtR

Highly recommended!! 👩‍💻 👨‍💻

If you do have a decent technical/programming background then here
is the suggested path to be a reasonably good in AI:

1️⃣ Start with 'Data Science': Data Science for Beginners
- https://lnkd.in/db6pEz48 as 'Data' is the backbone of new-age AI. 📊
2️⃣ Dive into 'Machine Learning': ML for Beginners
- https://lnkd.in/d5VXdDH7 to understand the magic behind predictive
algorithms. 🤓
3️⃣ Explore 'Deep Learning': AI for Beginners
- https://lnkd.in/duTwZ7uA to lay the groundwork for building your
models and future research. 🏗️

By the way, all these courses are FREE and open to everyone. No
excuses! 🚫
